A Wicked Pack Of Cards is a poem with a kaleidoscope of different voices. It is a place where a keynote speaker chatters with a green knight; an old God teases a lost businessman with the prospect of a career-changing riddle; and where Europe's most famous Business Magician offers salvation to all those who believe in his wicked pack of cards. Set in no particular time, A Wicked Pack Of Cards asks what might happen in a world after our version of reality ceases to exist. It feels post-apocalyptic. It mixes old stories, traditions and superstitions with the digital fantasies, Venn diagrams and strategies of the commercial world. What would happen if the great business consultants of our time discovered paganism and sorcery? This. This would happen. The poem is made up of thirteen-cards and a riddle. Each one is a spell - a business spell. It will take you down the dark back-alleyways of burnout, depression and imposter syndrome. Yes, A Wicked Pack of Cards is dark; but read carefully, and it will eventually deliver you into the light of optimism and the most powerful spell of all: true love.

No Marketing Blurb

An essential volume for serious students of the Tarot, this compelling survey describes the many fascinating decks imagined over time and the secret histories of mystics.

A "how-to" book with 19 lessons and numerous exercises, beginning with the basics and gradually moving into advanced concepts so that you can learn to read the tarot at your own pace. Includes interpretations for all the cards. The author first presented this course on the Internet, and continues to provide website support for students with questions. 178 illustrations using the popular Waite deck. Appendix. Bibliography. Index.

The enigmatic and richly illustrative tarot deck reveals a host of strange and iconic mages, such as The Tower, The Wheel of Fortune, The Hanged Man and The Fool: over which loom the terrifying figures of Death and The Devil. The 21 numbered playing cards of tarot have always exerted strong fascination, way beyond their original purpose, and the multiple resonances of the deck are ubiquitous. From T S Eliot and his 'wicked pack of cards' in "The Waste Land" to the psychic divination of Solitaire in Ian Fleming's "Live and Let Die"; and from the satanic novels of Dennis Wheatley to the deck's adoption by New Age practitioners, the cards have in modern times become inseparably connected to the occult. They are now viewed as arguably the foremost medium of prophesying and foretelling. Yet, as the author shows, originally the tarot were used as recreational playing cards by the Italian nobility in the Renaissance. It was only much later, in the 18th and 19th centuries, that the deck became associated with esotericism before evolving finally into a diagnostic tool for mind, body and spirit. This is the first book to explore the remarkably varied ways in which tarot has influenced culture. Tracing the changing patterns of the deck's use, from game to mysterious oracular device, Helen Farley examines tarot's emergence in 15th century Milan and discusses its later associations with astrology, kabbalah and the Age of Aquarius.

Shows a fifteenth-century Italian deck of tarot cards, and discusses the background of each card and its design
